

"I Have Lived to See ... the Building of My Fancy" *

A SELECTED BIBLIOGRAPHY

compiled by John Welch

The bibliographic entries listed below were selected from articles and monographs published during the last five years. The list is highly selective and emphasizes a "how-to-do-it" approach to topics such as planning, construction, equipment and furnishings.

Some of the works cited below contain additional bibliographic references. Those interested in pursuing any of these topics are encouraged to consult H.W. Wilson's *Library Literature* index. Additionally, *Library Journal*, in December of each year, and *American Libraries*, in April of each year, publish features of library building projects from all across the United States.
