CONFERENCE ISSUE

Q. When does $5 + 3 = 23$?

A. When you spend 5 minutes with SIRS CD-ROM and input 3 key words (such as “fetal” “alcohol” “syndrome”), you’ll get 23 full-text articles.

Features of SIRS CD-ROM:

- Full-text articles
- Three search methods
- Print or download
- IBM-compatible
- Hundreds of sources
- Bibliographic citations
- Print full or partial text
- Hardware option

SIRS CD-ROM contains the same articles published in SIRS Social Issues, SIRS Science and SIRS Critical Issues volumes from 1989 to the present. Articles are accessed through an easy-to-use index, keyword search, or a table of contents matching the SIRS Volumes. Bibliographic citations may be viewed and will automatically appear on every article printout. The user may then view a particular article on-screen and print or download text onto a floppy diskette.

If you need hardware, SIRS now offers a hardware/software package to provide a total CD-ROM workstation. The **SIRS/IBM CD-ROM System** can be used either as a dedicated workstation or with other CD-ROM products. Flexible lease and on-site maintenance options are available.

Demo tour on diskette available.
Or, request 30-day free preview
of the actual CD-ROM.

AVAILABLE NOW!!!
