*... never in the history of our country has there been so great a need to know and so great a need to master skills required to equip individuals for continuing self-education.*

— North Carolina Libraries, Fall 1961, p. 67.

# Introducing: The SIRS CD-ROM LAN

The **SIRS CD-ROM Library Network** is a high-speed, high-quality local area network (LAN) package. The trio of workstations can access any of three CD-ROM drives simultaneously. The 100-megabyte (MB) hard drive can accommodate several software programs. This basic turn-key network is Novell\*-based, which ensures easy expandability of workstations and CD-ROM drives.

Installed on the network is **SIRS Combined Text & Index CD-ROM**: a database offering 6,000 full-text articles pertaining to social science and science topics. This easy-to-use format provides instantaneous access to thousands of articles from over 800 national and international sources. Full-text articles may be viewed on-screen and, if desired, printed or down-loaded as full or partial text.

The LAN package is priced at \$13,500, and includes a first-year subscription to SIRS Combined Text & Index CD-ROM. Alternative hardware configurations can be designed to suit individual library requirements.

## The Network Includes:

- ▲ Three 386SX (25 MHz) computer workstations (with VGA color monitors, enhanced keyboards), each with 1 MB RAM
- ▲ Two 386SX (25 MHz) computers for exclusive use as file server and CD-ROM server, each with 3 MB RAM
- ▲ Three CD-ROM drives
- ▲ 100-MB hard drive
- ▲ One laser printer
- ▲ Novell Network\*
- ▲ CBIS CD-Connection\*\* software (10-user license fee included)
- ▲ DOS 5.0
- ▲ SIRS Combined Text & Index CD-ROM

**Customer Service and Hardware Consultants** are available 9 a.m. to 6 p.m., Eastern Time to answer your questions.
