

# NORTH CAROLINA Libraries

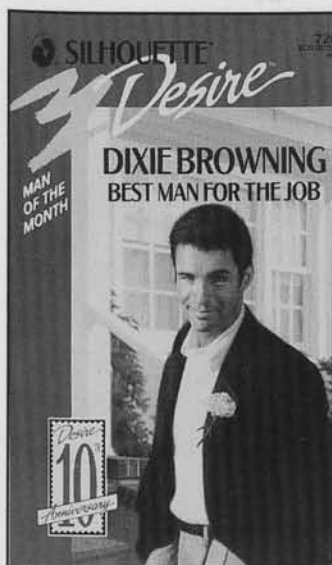

WINTER 1992  
PRESERVATION of POPULAR CULTURE

RECEIVED

FEB 9 1993

LIBRARY - PERIODICALS  
EAST CAROLINA UNIVERSITY

What is good library service for North Carolina? It is that combination of library materials, facilities, and services which encourages and enables each North Carolinian to achieve his maximum potential in every area of his life — in his work and in his play, in his relationships with his environment, his fellows, with himself.

Summer 1959, p. 103

# The Most Popular Spot in the Library

## SIRS CD-ROM Full-text Workstation

Librarians tell us SIRS CD-ROM is their most popular reference source. And when packaged as part of the **SIRS CD-ROM Workstation**, it's no wonder. This fast, full-text information system allows instantaneous access to thousands of articles for just **\$4,000**.

Full-text articles on social issues, science topics, and global issues and events are contained in the database. Articles have been carefully selected from over 800 domestic and international sources. Users can locate articles via Keyword Search, Library of Congress subject headings, or a topic browse mode. Article text and bibliographic citations can be printed or downloaded to floppy diskette.

### Flexibility, now and later

The SIRS CD-ROM Workstation can be shared with other IBM\*-PC compatible programs or dedicated to your SIRS software. The option is yours. Order your workstation with the standard components, or request a customized workstation (for instance, add more CD-ROM drives). The SIRS CD-ROM

Workstation may be purchased as a package *without* SIRS Combined CD-ROM for only **\$2,750**. To discuss customization options, contact our Technical Support staff, 9 a.m. to 6 p.m., Eastern time, Monday through Friday. Thirty-day software previews of the actual CD-ROM program are available by calling SIRS Customer Service. Call toll-free **1-800-374-SIRS**.

### CD-ROM Workstation includes:

- 386SX 33 MHz computer with 2 megabytes RAM and 100 megabyte hard drive
- High resolution SVGA color monitor (.31 dot pitch)
- Internal CD-ROM drive
- Dot-matrix printer
- DOS software
- Microsoft Extensions\*\* software
- One-year warranty with swap-out service
- SIRS Combined Text & Index CD-ROM (first-year subscription)
- Price \$4,000
