Guidelines for Using the Index to NORTH CAROLINA LIBRARIES

1. The index is alphabetized letter by letter. Numbers and dates are filed at the end of the alphabetical sequence. All acronyms are filed in alphabetical order, not at the beginning of each letter.
2. Articles are indexed by title, subject, and first-named author, with cross-references from coauthors.
3. Book reviews are indexed by the title and first-named author, with cross-references from reviewers.
4. All library organizations are entered under their full names. Material on the substructures of these organizations, such as committees, round tables, etc., is listed alphabetically under the organization name. (For example, for material on the activities, officers, reports, committees, and round tables of NCLA, see North Carolina Library Association.)
5. The abbreviations "comp.," "ed.," "ill.," and "pic.," are used to identify compilers, editors, illustrators, and pictures.
6. Reports of programs of the Biennial Conference are entered under the title of the program, the heading **North Carolina Library Association. Biennial Conference, 1993**, and under the name of the sponsoring group or groups. They are not listed by subject nor by individual speaker.

Introduction by Bruce Morton

Paul Buchanan (ca. 1910–1987) was an itinerant photographer who wandered four North Carolina mountain counties from 1920 until about 1951. The striking images in this book are posed pictures, but the subjects did the posing, leaving us a portrait of Appalachian families as they saw themselves.
