Research Shouldn't Be Like Looking for a Needle in a Haystack.

Conducting research is often like searching for a needle in a haystack. How would you like to search through a collection of needles instead? This is how we think of SIRS CD-ROM databases.

At SIRS, we believe *it's what's inside that counts*. So all the articles and documents on SIRS Research* and SIRS Government Reporter** CD-ROM programs are carefully chosen by the 25 members of our research staff. They read over 800 national and international sources looking for the best and most informative articles on a wide range of important subjects. SIRS takes the frustration out of research, making every search a hit. For a 60-day no-obligation preview, call 1-800-232-SIRS.

* Formerly SIRS Combined Text & Index CD-ROM.

** Selected full-text Government Documents.
