SIRS MANDARIN
M3

A cartoon character in a white lab coat is pointing at the chalkboard with his right hand and has his left hand on his chin, appearing to be in deep thought or explaining the formula.

We wiped the slate clean and built a Windows® NT library automation system that adds up. M3 features the latest technology – Z39.50 (version 3); 32-bit client/server; a true MARC record engine; year 2000 compliancy; plus flexibility, scalability and unsurpassed technical support – all at an affordable price.

SIRS Mandarin M3™ equals the formula for library automation success.
