Volume 44, Number 1

Spring 1986

## We've taken book ordering out of the Dark Ages.

BaTaSYSTEMS™ is Baker & Taylor's newest generation of electronic book ordering services. It's especially designed to work with existing computer hardware, with built in flexibility that allows you to match the level of service to your library's unique needs.

Whichever service level you choose, you'll save time, reduce paperwork and speed book acquisitions—all at a lower cost. For example:

**ORDER** allows you to order books through your personal computer, using a modem and regular telephone lines. Just enter the ISBNs and the following day you'll receive electronic confirmation from which you can print order slips. All calls are toll free. You also save the cost and delay of postal delivery.

Or you can choose **SEARCH AND ORDER**. In addition to electronic ordering, this service gives you quick

access to Baker & Taylor's diverse and comprehensive database of over 800,000 title records. It's your single source for virtually all the titles published or distributed in the United States. And you eliminate manual searching and purchase order typing.

Finally, BaTaSYSTEMS ACQUISITIONS offers on-line access to our database and electronic ordering plus a complete software package with fund accounting and full reporting functions.

These advanced service technologies are typical of how Baker & Taylor stays in step with the times, building on our experience to bring you the latest in library services.

BaTaSYSTEMS. It's nothing less than a renaissance in book acquisitions.

Write or phone today for more information.
